

Trimline Woody Loft 3S

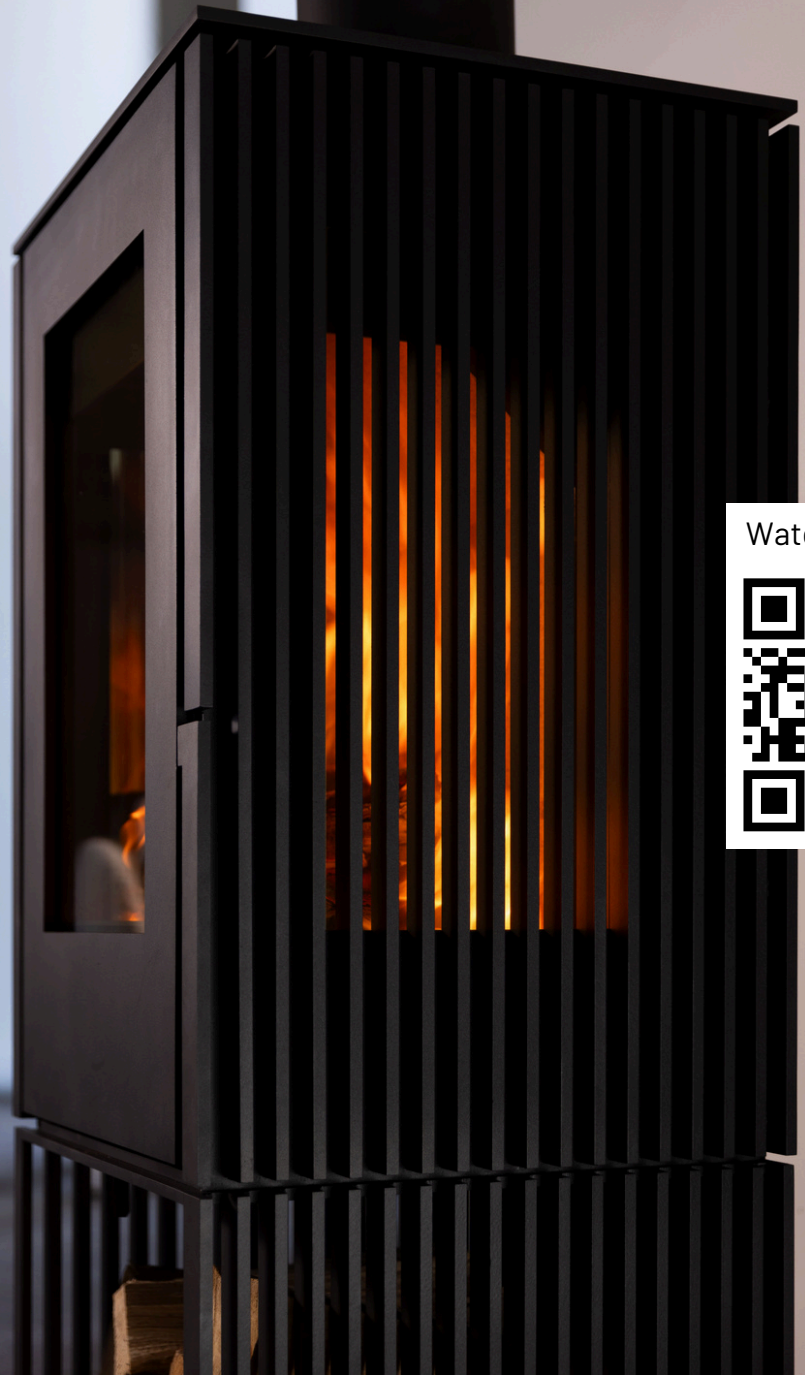

This stylish 3-sided wood stove doesn't only provides warmth, but also gives a beautiful view of the flames from every corner of the room. The grooves on the sides enhance the heat distribution and create an atmospheric orange glow, which makes the room extra cozy. With a modern design, characteristic of the Trimline Woody Loft series and optimum heat efficiency, this stove is a real eye-catcher in any interior. Perfect for those who love comfort and aesthetics.

Unique in the Trimline Woody Loft 3S: Heat Reflective (HR) Premium Ceramic Glass

- Special coating to reflect infrared rays into the stove
- HR glass ensures an increased temperature inside the stove/fireplace and therefore better combustion
- 'Self-cleaning' glass: the increased temperature burns off the soot particles on the window
